David, Michael, Michelle and Dan,

I suggest we get together and discuss this. As I think you know Rob Duff has set up a meeting for us, NOAA and the state to talk about HTL for early April with a follow on meeting that would include USACE. It would be good for all of us to have a shared understanding of what USACE is planning on finalizing with the NWP and what if any position/approach EPA should have related.

I will look for a time on our calendars for early next week.

Thank you,

Peter

All,

I just learned that our admin team in Portland didn't have email addresses for you, and thus did not send this to you last week. Here you go. Thanks for your collaboration during the NWP review process.

Elizabeth
